Liam Lewis Curriculum Vitae

I have 5+ years professional experience in front-end web development. Working in varied environments including creative agency, corporate and freelance. I've worked on the maintenance of a large network of sites, developed highly bespoke eCommerce & WordPress sites and have developed similar projects as a freelancer using many different languages and disciplines.

Key Skills

HTML5, CSS3, JavaScript ES6, jQuery, ReactJS, NodeJS, AngularJS, WordPress, Bootstrap, AJAX, PHP, MySQL, SASS/LESS, Git, SVN, web and graphic design, cross-device & browser compatibility.

Contract/Employment History

Immediate Media
Oct 2016 - June 2017

Contract

I worked with Immediate Media on an eCommerce platform for their new TV shopping channel that was launched in February. The site features a live auction with product information provided using **sockets** and **AJAX** calls to a **RESTful API** from **AngularJS**. Other disciplines used: **HTML5**, **CSS3**, **WordPress** & **PHP**.

Countrywide
March - August 2016

Contract

I worked in Countrywide's front-end team building a portal for their customers to buy or sell property. We had a fast turnover using **SASS** (with the Gridle framework), **HTML**, **jQuery** and **GULP**. I also worked on updating their internal bookings system using **ReactJS** and **NodeJS** (with **Express**).

Indesign Studio X
Jan - Feb 2016

Various Site Fixes

Indesign Studio X required my services for various **eCommerce** site fixes and new features requested by their clients. I used **JavaScript**, **jQuery**, **HTML5**, **CSS3 & Bootstrap**. Indesign Studio X work mainly with Shopify and are rated as the **#2 Shopify expert**.

Giants & Titans
Nov - Dec 2015

Contract

Giants & Titans required an **AngularJS web app** for their haircare client Umberto Giannini. The project involved the build of a bespoke prize picker that could distribute prizes fairly between a varying number of final users. I built the project with using **AngularJS**, **WordPress, AJAX**, **PHP**, **MySQL**, **HTML5**, **CSS3** & **Bootstrap**.

Planet-9

April - October 2015

Contract - numerous

I've worked on a number of projects with Planet-9. Most recently I was the sole developer on a project that delivered a competition using **WordPress**, **HTML5**, **CSS3**, **Bootstrap**, **PHP**, **jQuery** and **MySQL** to manage 70,000 unique prize codes, collect user info and provide a **fully bespoke admin area**. Planet-9 were impressed with my performance.

1HQ

May 2015

Contract

1HQ required final **Photoshop designs** to be created from wireframes that would be ideal for development with **Bootstrap**. The contract lasted for 2 weeks. 1HQ were pleased with the quality and speed of my work.

Juicy Lemon Creative

October 2014 - April 2015

Permanent

Over the winter of 2014/15 I worked freelance with my company Juicy Lemon Creative, building websites for businesses & entrepreneurs. Key skills included: **WordPress**, **HTML5**, **CSS3**, **Bootstrap**, **PHP**, **jQuery**, **MySQL**

Shopify Builder

April - October 2014

Permanent

I was headhunted for my role at Shopify Builder where I enjoyed creating a range of bespoke **eCommerce** and **WordPress** sites, also using **HTML5**, **CSS3**, **Bootstrap** & **PHP**. Over time I became the lead **JavaScript** & **jQuery** developer, reducing the amount of outsourcing the company had to do.

Education

Sound & Multimedia Technology BSc Hons
2:1
2009 - 2013 *Birmingham City University.*

BTEC in Music Technology
Triple Distinction.
